

Trans journalist

## Background

Communicator, feminist, trans who is covering issues on gender, diversity, violence. Promoter of sexual and reproductive rights as Community Manager of a feminist journal. She and her community have organized to train more journalists on communication with a perspective of gender. She is also alert about cases of femicide to give support to the families, also to trans people who are discriminated against.

## Goals

- Share information with a gender and diversity focus.
- Denounce threats against the diverse community and women.
- Promote communication with a gender perspective.

## Technology use

She uses all social networks and platforms to share her work, such as: Facebook, Instagram, Telegram, Twitter. She has a space created to share her reports.

She has concerns about her communications being tapped, she uses VPN sometimes, when she works on sensitive topics. She also uses Signal to communicate.

Hashtags - #seguridaddigital

## Threats

- Troll attacks on shared content.
- Attempted hacking of Web pages, mail and social networks.
- Phishing.
- Reporting of published content to be removed.

## Strengths

- She has concerns about her digital security.
- She implements certain tools to protect her digital security.
- She implements strong passwords on her social networks.

## Questions

- How do I protect my mobile device?
- How do I deal with troll attacks?
- If they want to attack my accounts, how do I protect myself?
